

Category: Flash Diffusers	SKU: CHRDOM	Brand:  GARY FONG
-------------------------------------	-----------------------	--

Description: CHROMEDOME (Power Booster)

RRP: \$79.95

Quick overview:

The highly reflective surface of ChromeDome™ increases light output dramatically while still keeping the Lightsphere diffusion properties. With ChromeDome™ you are able to achieve up to double the power and efficiency, but the diffused look will be identical.

This is achieved through the open top that allows clear light to hit the ceiling. The chrome-plated kicker panel blows light forward, while the inverted bowl is dramatically brightened as it blasts more light into itself.

ChromeDome™ is made for the Lightsphere Collapsible, Lightsphere Universal and Lightsphere 2 Cloud Models only - it does not work effectively with the older clear model.
