

Digital Photo Manager – innovative first of its kind.

- PhotoMemo record and playback.
- Faster copies - 1GB in about 90 seconds.
- New DSLR support: IPTC metadata, RAW, EXIF, and Histogram.
- Ultra high-capacity drive securely saves and helps manage photos while on location or on the road.
- Colour screen and output to TV or projector.

Garage Brands (www.garagebrands.com.au) announced today that it is introducing the new Picture Porter 35 into Australia, just days after its release in the USA. Picture Porter 35 is an innovative high-capacity portable digital photo manager with a 3.5-inch colour screen for easy viewing; built-in hard drive with capacity 250GB or 500GB; and a multi-format memory card reader. The next generation of the award winning Picture Porter family, Picture Porter 35 provides super fast copy speeds of 1GB of data in under 2 minutes.

Picture Porter 35 lets you instantly and securely save and view digital photos and video on its hard drive wherever you go. Not only does Picture Porter 35 relieve the worrying about limited memory card space for your digital camera, it's also the best device to help you secure all your photos in one, easy-to-manage location. **Picture Porter 35 is the first device designed specifically as a Digital Photo Manager.** It's the perfect digital camera companion to replace your notebook computer and allow you to travel light when you are out in the field on a photo shoot or on vacation.

At work, at home or around town, you'll find many different ways to use the Picture Porter 35 in your everyday life. It becomes your digital portfolio or family digital photo album where you'll store years and years of photo collections for quick and easy retrieval. Pricing starts at \$599.99 and the package includes earphones, all cables (including RCA) and custom carrying case.
