

This stylish dark brown solid wood digital picture frame easily displays your favourite memories with an automatic slideshow. With a 7 inch display and 480 x 234 resolution, pictures display crisp and clean.

The SP72 digital frame includes a built-in SD/MMC, MS and xD card reader which allows memory cards to be inserted into the side of the frame. Once the memory card is inserted into the frame or saved onto the internal 128MB memory, photos are ready to be displayed.
